

A word on importance of a women cell unit

The women's cell unit of our college was formally started in 1993. Ours is a teacher education institution and majority of our students are women. So there is the need to organize a women's cell to safeguard women's interests. The aim of this cell is to create awareness of social problems faced by women in general. Women students are earnestly exhorted to take active part in the activities of the cell.

The students, teachers and members of the community shall have to work together to elevate the status of women. The unit organizes seminars, discussions, debates, study classes, cultural programmes and other activities.

A word on celebrating international women's day

Established in 1911, IWD is a major day of global celebration for the economic, political and social achievements of the women of the past, present and future. It is a day in which women from around the world unite in thoughts, prayers, struggles, hopes and dreams. Women's accomplishments in education, business, science, art, medicine, public service, athletics, and every other field have made our world better and stronger.

Today, we celebrate the women in our lives. This year we are thrilled to have you join us in supporting and celebrating this day and felicitating our

International Women's Day and beyond, I pledge to ...

- ⇒ Help women and girls achieve their ambitions
- ⇒ Challenge conscious and unconscious bias
- ⇒ Call for gender balanced leadership
- ⇒ Value women and men's contributions equally
- ⇒ Create inclusive, flexible cultures

IWD celebrations inspire change.....

- For more women in science, engineering and technology
- For greater awareness of women's equality
- For more women in senior leadership roles
- For equal recognition of women in the arts
- For increased financial independence of women
- For growth of women owned businesses

"I alone cannot change the world, but I can cast a stone across the waters to create many ripples."
